 #2 Cavalier King Charles Spaniel in Australia 2019.
 #3 All Breeds dog in WA 2018 and 2019. (DOL)

 Also has 38 Best Exhibits In Group awards to his name.

Without the support from Solo's breeder and co-owner Kym Brooksby, none of this would have been possible, so a big thank you to her.

President Report

CEO Report

As I write this report today, I am searching for more detailed information on the newly announced changes to COVID-19 restrictions and what they mean for activities and events for our Members.

It has certainly been a very different and, at times, difficult time under COVID-19 restrictions, and we continue to work to ensure that we meet the changing requirements for the safety and well-being of our Members and staff.

Negotiating the restrictions to understand how they apply to Dogs West has been challenging, and decisions made are always with a view to compliance to avoid having our grounds closed and fines being incurred.

I am sure we are all looking forward to once again enjoying the full range of activities we have with our dogs.

The pandemic has impacted on the financial management of our organisation, but we have been fortunate to qualify for the jobkeeper subsidy, meaning that we could both retain the services of our staff, and be financially supported during this time.

As COVID-19 Restrictions are lifted, we will work with Clubs to assist as much as possible to get events up and running again, and we will continue to keep all Members informed of any decisions made via our e-newsletter.

At this time we are awaiting a decision regarding the Perth Royal Show. As the primary opportunity for our dogs to be showcased to the public of Western Australia, we look forward to working with the RAS should a decision be made to go ahead with an event which includes our Members and dogs, should that be achievable.

The next couple of months will present a clearer picture of our financial situation against the budget that has been agreed by Governing Council for the coming year. Budgets are not absolutely set in stone and will be amended if required to ensure the financial well-being of the organisation.

As the election period opens for the roles of President and three Councillors, I urge all Members to consider who has nominated for these roles and to cast your vote. Elections are your opportunity to have a say.

Dogs make us happy, because if dogs do anything well, it's being happy themselves, and happiness—bless it—is catching.

Pamela Campbell, President

I would like to extend my appreciation to all members for their consideration and patience during the close down of the office during the peak of the COVID-19 restrictions. With only one staff member, occasionally two, physically in the office to answer phone enquiries, the members' assistance in making more use of emails was very useful. The staff members working from home were able to access their emails to provide answers to the members' queries.

As the COVID restrictions are updated by the government, Dogs West will amend the requirements in accordance with this information. Every increase in allowable numbers will allow more events to recommence. Arrangements through the office for schedules and advertising will be flexible to assist affiliates get underway with events for their members.

The compliance with number restrictions on the grounds is difficult with the extra people that exhibitors may bring with them and any public attending. Club committees cannot be expected to try to count heads – especially when there is more than one show on – hence the delay in commencing conformation shows. Members will need to realise that conformation shows booked for the grassed area may have to be conducted in the rain. If other shows are booked under the pavilion, it will not be possible for shows on the grass to just move under the pavilion as it will then exceed the allowable number.

During the close down of the grounds, Nathan has been busy completing the filling of the kerbed islands with either broken bricks or mulch.

The area behind the amenities building has been improved with a limestone wall and the retaining wall near the compound has been repaired by Ben from AClass Limestone.

The corella damage to the lighting and parking towers' cabling has been repaired and those cables not targeted yet have had a protective sleeve installed. A new parking tower has also been installed on the Ranford Road side of the large island between the two arenas.

There are plans in place to increase the planting of new trees in the areas around the lower arena. Hopefully these will be in soon to take advantage of the winter rains with a consultant attending the grounds to advise on varieties to plant and positioning.

Governing Council Elections 2020 Nominations

Nominations for President (1)

PAMELA CAMPBELL – Elected Unopposed

I offer my nomination for President of Dogs West.

The COVID-19 pandemic has seen significant impact on Members and the organisation.

It has delayed the Stop Puppy Farming Bill tabled in Parliament in February. The work to minimise any impact on Dogs West Members by this Bill must continue.

The upcoming amendment to the Animal Welfare Act will also require close scrutiny.

Dogs West has represented our Members directly to our Legislators and with your support I will continue that work.

We need to increase our engagement with the wider community and Government; welcome new members and new ideas, and promote our breeds and the benefits and pleasure of owning a dog. Marketing needs to be a focus.

I am proud of the work done to improve our facilities; they are world class.

Dogs West is in a stable financial position and I support the Governance framework Dogs West has in place to effect compliance to our Code of Ethics and Regulations, whilst affording natural justice.

Nominations for Governing Councillor (3)

KAREN RICHARDSON

I am Karen Richardson for the new members that don't know me, I am 'little Karen' with the Rotties & English Toy Terriers, to the Members that know me !

I am Secretary of a couple of clubs and enjoy it immensely. I love to help out as much as I can.

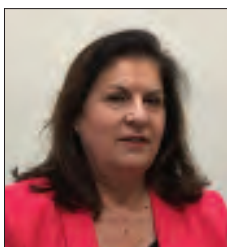

I have been a member of Dogs West for over 20 years and I have enjoyed being on Governing Council for the past year.

I have learnt so much and I find it fascinating on how Dogs West is run.

I am a down to earth person and happy to listen to any ideas you have on ways to save our Pure Bred dogs and to encourage new exhibitors all disciplines.

JULIA LOGAN

I have owned and lived with dogs for many years. In the mid 1980s I handled in the conformation ring. I then purchased my own show dog in the late 1980s and commenced breeding in 2002. My contributions to the dog world include membership of various dog breed clubs, various Committees, and coordinating canine cardiology clinics since 2005. I have a strong interest in canine health testing.

I have thirty years experience working as a public servant in tertiary public hospitals. My experience also includes

working as a university lecturer, advisor and providing consultancy services. I take a methodical approach when dealing with complex issues. This is due my work experiences and holding qualifications in health information management, health administration, research and health informatics.

If elected I will provide a range of skills to the canine community and will demonstrate professionalism to achieve sound outcomes.

HEATHER JONES

I have been involved in the dog world all my life. I first joined the Junior Kennel Club at the age of 12 and served on the Executive and committee team until I was too old at the age of 26. I have also been Secretary of the Hound Club of WA Inc and the All Breeds Dog Club of WA. I have also served on the committee of the Ladies Kennel Club and am currently the President of the Metropolitan Kennel Club of WA and the WA Beagle Club Inc. My working life sees me following my passion in the Animal Health industry as an Account Manager for IDEXX (Diagnostic Chemistry and Haematology Equipment) in the Veterinary industry.

As a current Governing Councillor for Dogswest, I am the chair of the Marketing committee and have been available to help members write letters to members of Parliament for the "Stop the Puppy Farming legislation", in offering a template and offering guidance and support for all members.

I would like to work with and for our members, not be a fence sitter and share your beliefs for the common good of Dogswest. I seek your vote once again to share your views at Dogswest in this 2020 re-election.

Governing Council Elections 2020 Nominations

I am nominating as I wish to see us all come together, grow, learn and support one another. I am active in many disciplines conformation, tracking, agility, rally and dock dogs. Some of the changes I stand for:

- A National Body with state bodies in place
 - Fairness and equity
 - Accountability Transparency Consistency
 - Member involvement
 - Promotion and Marketing of who we are and what we offer
 - Proactive involvement in Government, state, federal, local, legislation that affects us all
- With the recent pandemic the world is changing and this is the perfect time to make some positive changes in the dog world.

SALLY BAXTER

I am a retired Primary School Teacher, Registered Vet Nurse and now owner of my own Grooming Business. I have been a Dogs West member for over 30 years, with a continuing commitment to the clubs I am a member of. I am currently President of The Poodle Society of WA & the President of WA Toy Dog Specialist Club. I have already served a full term as a Governing Councillor and have been the Chair of the Judges Training Committee during that time. I would be honoured to be re-elected and to be able to continue with plans in progress.

I am an ANKC approved All Breed Dog Judge and Child Handler Judge. I have travelled, competed, and judged in all states of Australia, and many countries overseas. I believe we have a wonderful Canine Community and although we are currently travelling through the most challenging time in our history, we can pull together and forge ahead and I would like to be part of that process.

HOUNDS IN HARMONY

Dog Training & Natural Therapies

Holistic Enrichment Ideas

By Katie Saran, Hounds in Harmony

Katie with client

With us spending more time at home, now is the perfect moment to introduce and explore new activities with our dogs. You'll be surprised by what fun you can have, as well as challenging your dog in a healthy way.

There has been a big buzz around enrichment, but what is it exactly and why is it so valuable to be doing for your dog? The definition of enrichment itself is **"the action of improving or enhancing the quality or value of something"**. In loving our dogs, we want to do the best we can for them, so when applying enrichment to their lives, this can take many forms and is well worth thinking outside the square.

By bringing new approaches beyond a typical walk and food dispensing toys (which are all highly valuable!), we get to challenge the status quo for our dogs, which itself is enriching. This fires up neurons that will have the added benefit of taking idle energy away from less desirable behaviours and making it productive.

With a holistic approach, we are looking across a range of options that have interconnected benefits for our dogs physically, mentally, emotionally and spiritually. Keep in mind, every dog is an individual and will have their own abilities, strengths and preferences. These ideas are options to try, and depending on your own dog's breed, age and personality, you may find they gravitate to some things more than others. My advice is to do what is appropriate, fun and safe for your individual dog and circumstances. Try something, and don't be afraid to shelve it and go onto something new. Having a rotation of games and experiences to draw from, is an easy way to bring balance and spice things up.

A high energy dog will equally benefit from the more 'yin' activities that have them slowing down and concentrating. Likewise, an older or more mellow dog may benefit from physical activities that introduce gentle movement to increase range of motion and circulation. Be careful not to attempt to tire your dog out with constant, high intensity repetition games, such as fetch; this is very hard on the body and can also whirl your dog up mentally.

Below are ideas to consider, and they may need further research to introduce and apply appropriately with your dog. When in doubt, it is beneficial to seek support from professionals in the field with many offering remote services.

Physical Movement, Brain games and Conditioning:

- Set up an obstacle course using chairs, boxes, books etc, for your dog to go under, over and weave around.
- Create a circuit, with different skill sets to practice at each location, such as with Rally Obedience.
- Try trick training; get ahead of the game with practice at home, ready to jump into Trick Dog Trials as the new ANKC sport emerges. You can have a lot of fun with this and join various groups online for support.
- Scentwork is another ANKC recognised sport, so it is a great time to start teaching foundations while at home.
- Set up scavenger hunts, to get that nose working. It could be as simple as a scatter feed, or up the ante and have the kids do an Easter Egg style hunt by hiding treats in the home or garden and encourage your dog to "Go-Seek".
- Take advantage of all opportunities available to you by adding an extra dimension to their world (in a way that doesn't encourage unwanted behaviours) for example, if you have poles in the garden get them weaving, or if you have a stable, raised surface, get them to jump up onto this to find a toy or treat.
- Teach stair walking; most dogs will prefer to take the stairs at speed which takes less effort. So, by slowing them down to walk the stairs, you will engage different muscles and get them thinking about limb placement for controlled movement. Help them by using a food lure and supporting with your body as a guide. This can be a great one for increasing muscle tone in the rear end and is an easy activity with no set up. As a bonus it gets you both doing some extra physical activity.

Learning to walk up stairs in slow and controlled way

- Introduce body awareness and improve proprioception, with home style Cavaletti, using brooms and mops laid along the ground, then propped up. Have your dog walk over the course in the same direction and watch them process where to be lifting and placing their limbs and paws.
- Alternatively, bring in some rear end awareness, by having your dog learn to pivot on a block or old-style round biscuit/chocolate tin filled with stone or sand and tapped up. This is a multiple step process, where they learn to keep their 2 front feet on the box and swivel their back end around. This can help with general lead work and positioning for other games and sports.
- Use a variety of food dispensing toys to mix things up from licking, chewing to bopping with the nose. They also don't need to be anything fancy; for example, with more online orders, many people have extra cardboard boxes coming in. Place a treat inside, and cross over the box lids to have a closed

fold or add tape, and watch the fun begin. Of course, the value of Toilet paper has gone up, so get your values' worth by folding the edges of a used toilet roll with a treat inside for your dog to rip and tear apart.

- Incorporate mindgames by creating your own toys or using Puzzles with treats such as Nina Ottosson toys, which are a great game to play together.
- Set up a Snuffle mat for indoor quiet activity in a small space, there is a reason they have become very popular in recent times. Why not get the kids involved in making one as well, to get 2 enrichment activities for one idea. Licky mats also can be purchased or set up using a silicon bench protector or even smearing food over a large food lid.
- You can take it up a level by using a shell pool to create a snuffle pit. This is a great one for all seasons; where you can use leaf litter, or sand and hide some treats or toys amongst it for your dog to hone in their natural foraging skills. You can switch it up with or water or fill with empty plastic bottles instead.
- Teach your dog how to play Magic Cups, by getting them to signal a cup with a treat under it. You can then build this up to multiple cups, and slide them around to have your dog guess which cup the treat is under.
- Have a Toybox with a lid, rather than having all toys out with free access, encourages your dog to choose what they would like to play with. By rotating toys, you will keep the interest high and it is always a lot of fun to watch them poke around and choose.

Palpation and handling practice

Practical Enrichment:

- Training for calm handling and husbandry, capitalises time into making general care much quicker and a less stressful experience. Teaching your dog how to accept and even enjoy ear cleaning, nail trimming and teeth brushing, is well worth the investment in time. All of these should be worked on at your dog's pace, making it an enjoyable experience by doing little steps to desensitise them with a high rate of treats.
- Physically palpating (by gently moving your hands over your dog), can help them feel better about handling when they are checked over by the vet or when they go to the groomers. It is also a great opportunity to help you become more in-tune with your dog's body. Notice areas that may feel extra tight or have hot zones, to indicate regions needing some extra TLC.
- Sound desensitization can help dogs with noise phobias, such as with storms, but is also fundamental in socialising puppies to a range of novel noises. Play different noises in the background at a low level to start, while doing an activity with your dog. You can gradually increase the volume while making the experience fun.
- Have the family do dress-ups with costumes, sporting equipment and random items you have at home. For example, the kids can do an Easter hat parade for a bit of fun. This is particularly important with current reduced options for socialising puppies, to better prepare them for different situations in future.
- If you do have a new puppy addition, be very mindful during this time of the importance of socialising during their critical period. It plays such a huge role in shaping who they become as adults and how they interact and respond to their world. Remember socialising is about becoming a well-adjusted member of the family and society, not just about meeting other dogs. Less is important too, more so than ever, every dog should be getting practice being by themselves, so they can cope when things do go back to normal.

Diet enrichment:

Chewing Raw Meaty Bones provides great enrichment and teeth cleaning

- We have touched on different ways to feed, but have you thought about adding enrichment in **what you feed**. I am a big believer in feeding biologically appropriate fresh food, with benefits for long-term health, vitality and nutrigenomics. Think about how you would feel getting the same brown pellets for every meal, versus the excitement of different tastes and textures.
- Feeding the right food is important and dependent on how sensitive your dog is. A general baseline is to 'feed the rainbow', by trying new types of fruits and vegetables, along with different animal proteins in muscle meat, offal, eggs and fish. Switching out 20% to fresh food, is an easy way to increase health benefits and reduce inflammatory markers. Be sure to practice good hygiene standards, as you would with your own meal prepping, and watch your dog's face light up with something new.
- Raw meaty bones are great for encouraging chewing, ripping, and tearing, which use a dog's dental anatomy to the max and engage biological needs. Chewing itself releases endorphins, creating a feel good for your dog, while cleaning teeth and boosting their nutritional intake. The right bone is important (no cooked bones or highly dense weight bearing bones), supervision is a must, and choose the type appropriate for your dog's size and chewing style.

Emotional Enrichment for Team Bonding

Being involved in the above will boost your relationship with your dog and the following add an extra layer for your connection.

- In still having access for outdoor exercise, try a different walk where your dog decides which direction (within reason) and how long he or she spends getting to smell a spot. You may find your dog slightly confused, and looking to you for guidance, but be patient and allow them the time to figure it out. For those people that are used to getting from A to B very quickly, this is also a positive mental challenge, for you to pull back and see where your adventure takes you.
- Try play without toys, by mimicking play bows and encouraging chase me games, and others like hide and seek.
- Get hands on and massage your dog, by using slow or circular strokes down and along the body. This feedback system is also very soothing for us, increasing our serotonin levels. Set up an area on the ground (or comfortable for your dog on a raised surface), and notice what areas your dog is most receptive to and what pressure is preferred.
- In building on the power of touch you can learn how to incorporate stretches into your dog's routine. This will increase circulation and keep range of motion strong. Likewise, Tellington Touch or T-Touch is a great avenue to explore, in helping to ground your dog's nervous system.
- For sensory enhancement, you can try safely incorporating essential oils in this routine. Be sure to use therapeutic grade oils that are safe for dogs; and a little goes a long way, so it is important to use a carrier oil at the

right dilution. You can include your dog in the choice by allowing them to sniff the closed bottles at a distance and see what they gravitate to. Once diluted, you can rub in your hands and gently stroke and massage into their body (avoiding the face and eyes).

- o And now for something completely different... try some Yoga, Pilates or floor exercises; this is great for your own physical movement, and mindset. Go in with a sense of humour and your dog will have some interesting entertainment to watch. Your breathing will create a calmer atmosphere, and if they choose to participate, you may not have a straightforward session, but you will have a good laugh in the process!

The beautiful thing about taking time to be present and enjoy watching your dog live in the moment, is you will have your own benefits that come from mindfulness. This will bring inner calm; and this centring will help stimulate your parasympathetic nervous system (the 'rest and digest' phase we want to be in), that boosts your own health and state of being. Research has shown how perceptive dogs are to our emotions, so working on our own stress levels, in turn helps our dogs. This is win-win and will help everyone move through these challenging times, while having some new skills to keep for life!

A member retains the right of free trade, to advertise directly and sell dogs not kept for line maintenance purposes by that member.
- 2.17 A member shall not breed with a bitch unless the bitch has reached adequate maturity for that breed as determined by the member's Member Body. The minimum breeding age for bitches across all breeds is twelve (12) months at the time of mating. - 2.29 A breeder shall be expected to maintain reasonable contact with the purchasers of dogs from that breeder and to offer continued advice and reasonable assistance.
- 2.30 A member **must** register all puppies bred by that member that are living at the date of registration. Such registration must include all living puppies from the litter on the one litter registration application form and must be applied for within six [6] months of the date of whelping.

- 2.35.1 The dog is portrayed in a manner consistent with its breed characteristics and temperament as described in the Standard for that breed; and
- 2.35.2 The dog is presented in a manner that is unlikely to create a negative reaction to dogs generally or that breed in particular and that if there is any likelihood of a negative impression, this is at the same time corrected through the development of a story line that presents the dog or breed in a balanced manner.
