## Canteen Update

In 2024, the canteen service was made available through an open application process. However, after careful review, the Governing Council determined that continuing the canteen service as a third-party operation is not a viable option. This decision was influenced by several factors, including:

- A decline in exhibitor numbers,
- The increasing presence of food businesses near Dogs West, and
- The growth of online food delivery services.

Furthermore, for the service to continue, the area requires further investment significantly impacting its sustainability as a cost-neutral service.

Dogs West is now collaborating with the City of Gosnells to explore the possibility of

members.

In the interim, exhibitors can continue to access catering options, such as BBQ hire for fundraising, food truck permits, and BYO arrangements. Please ensure your chosen catering option is noted on your schedule and booking form to facilitate necessary preparations.

More Information about Club catering options is available on our website [here](#).

Kind regards

Dogs West
